## The "Miracle" of the Angelus Player-Piano

From the first day one becomes a master of music—playing with perfect confidence and effect the most difficult compositions.

The melody buttons provide the widest possible latitude for personal interpretation. The phrasing device, for accelerating or retarding is exclusive in the Angelus, and the greatest aid in creating effects. The Melodiant emphasizes automatically the contrasts between the melody and accompanying harmonics. The Graduating accompaniment lever controls the accompaniment independent of the melody. The Diaphragm Pneumatics produce the same effect as the human touch on the keys. One can understand the Angelus Player-Piano after five minutes' explanation, and you are welcome to try it here any time.
